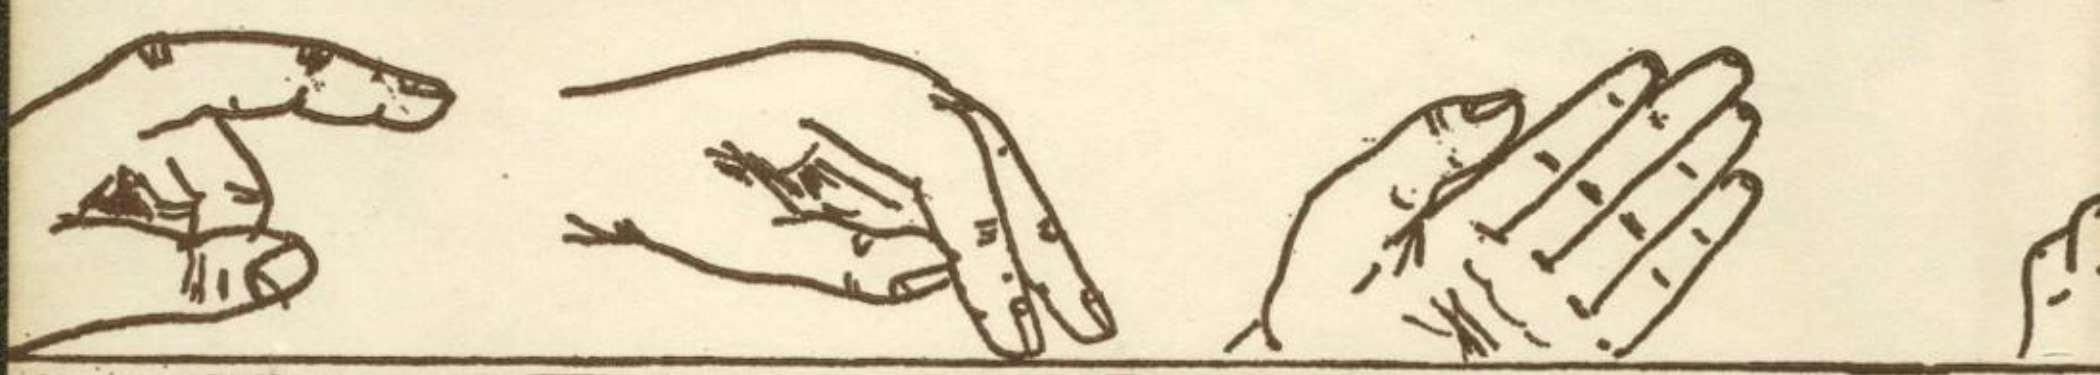
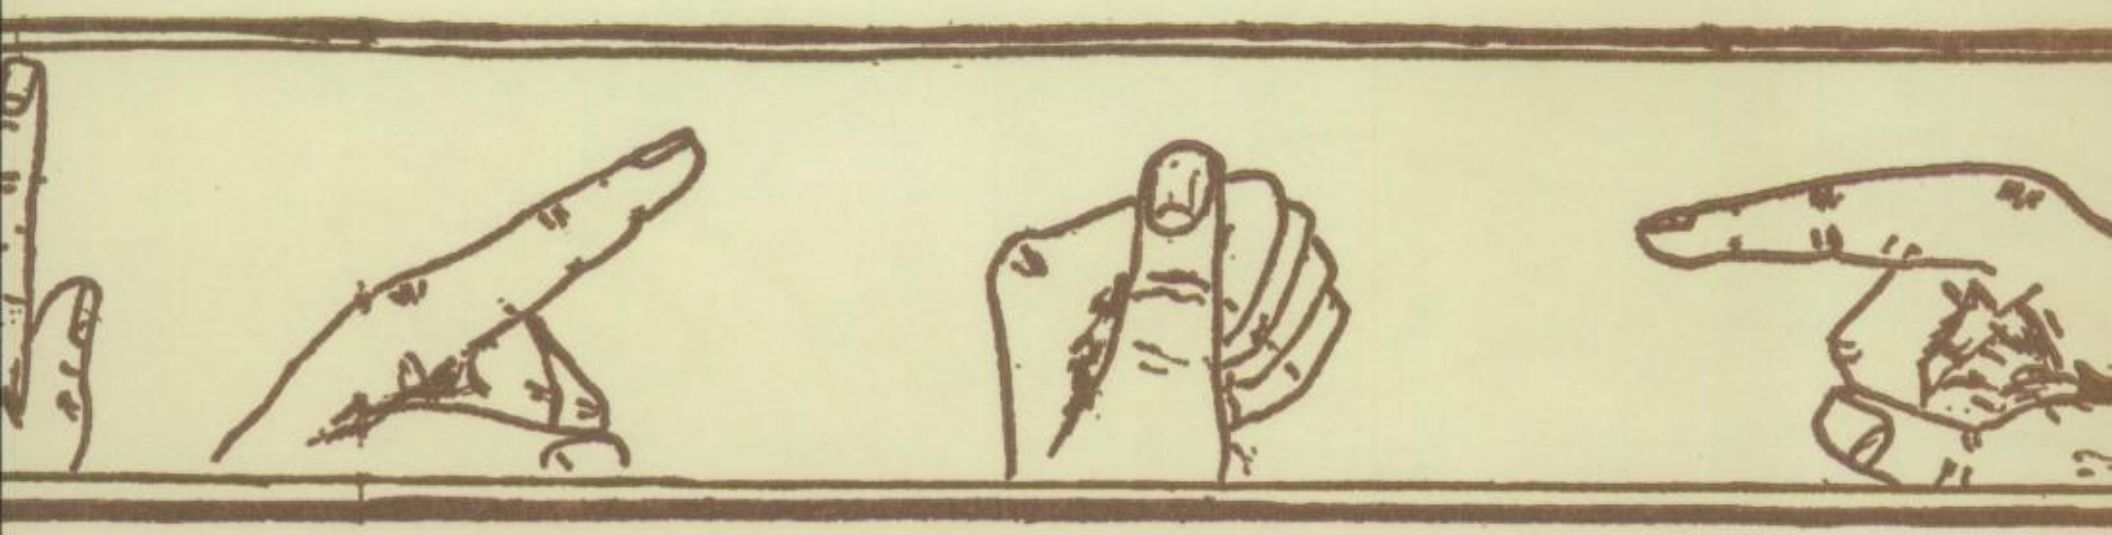
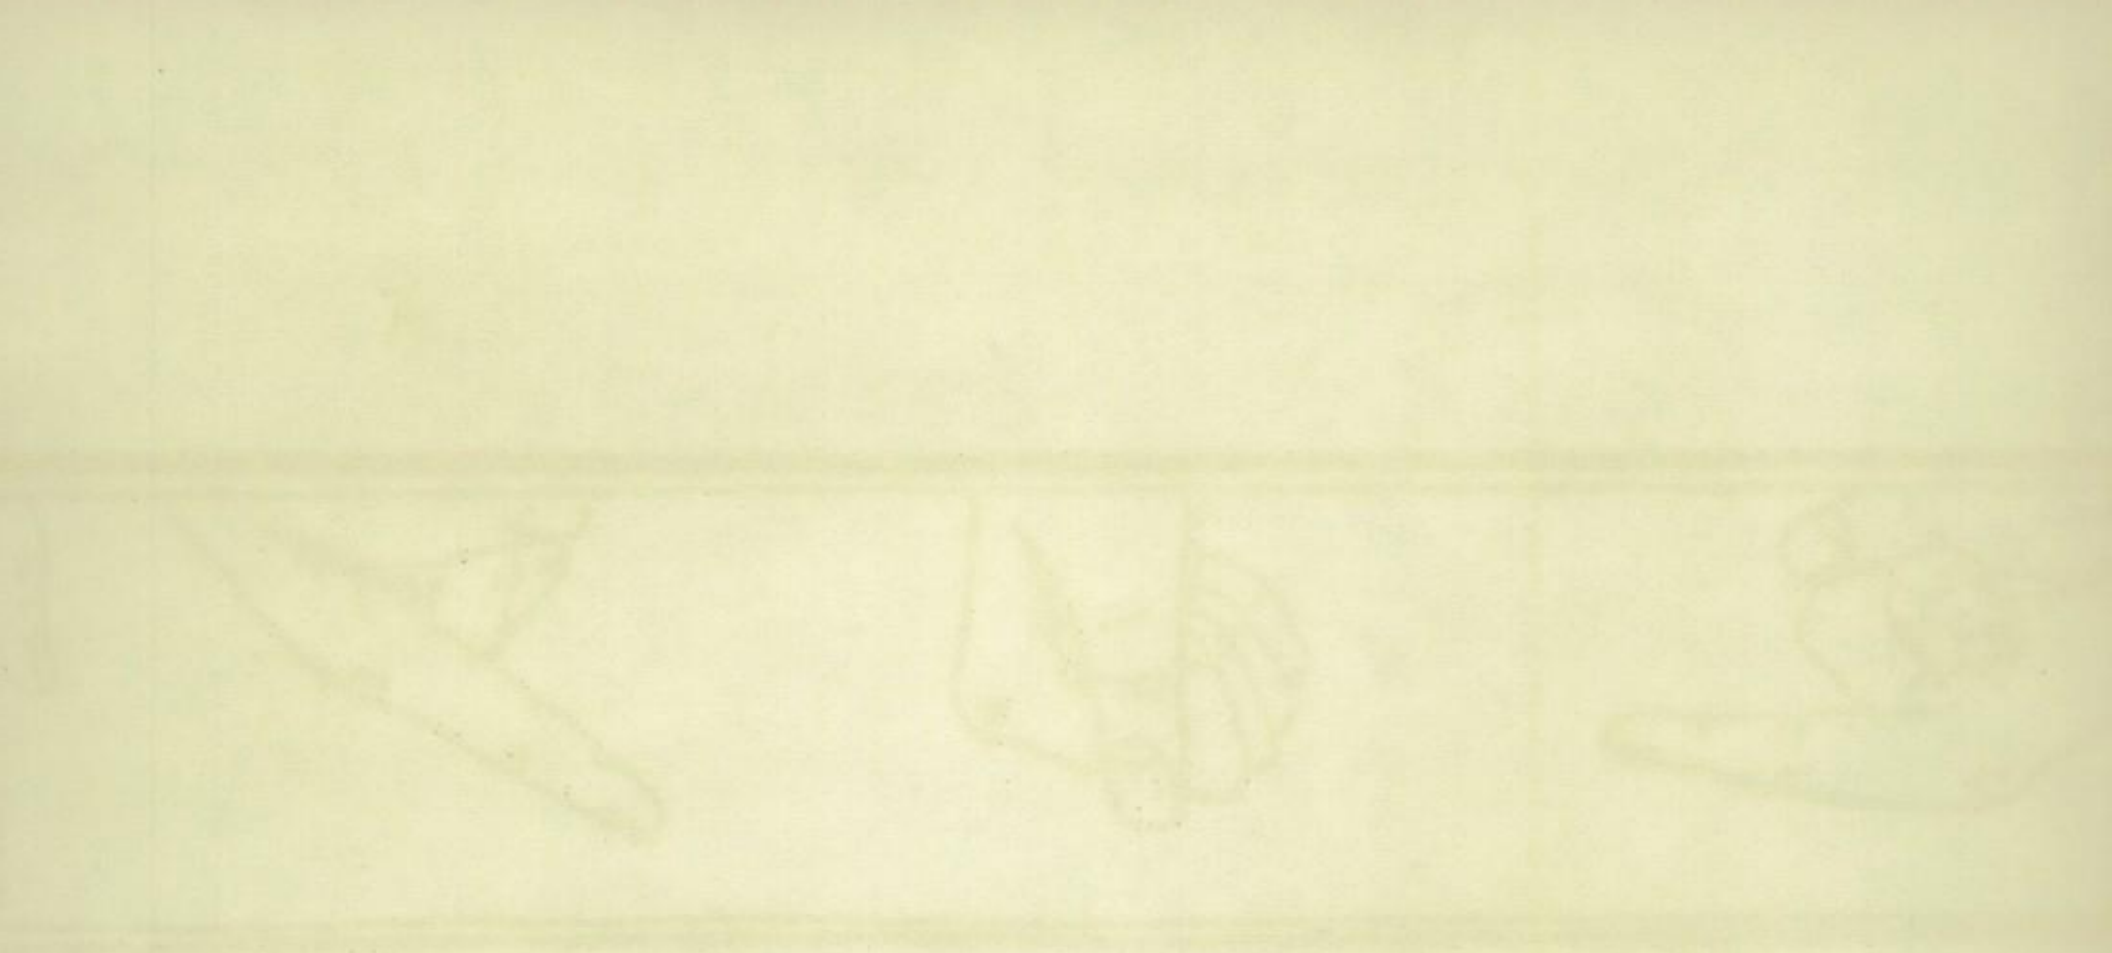
COLONEL

1962



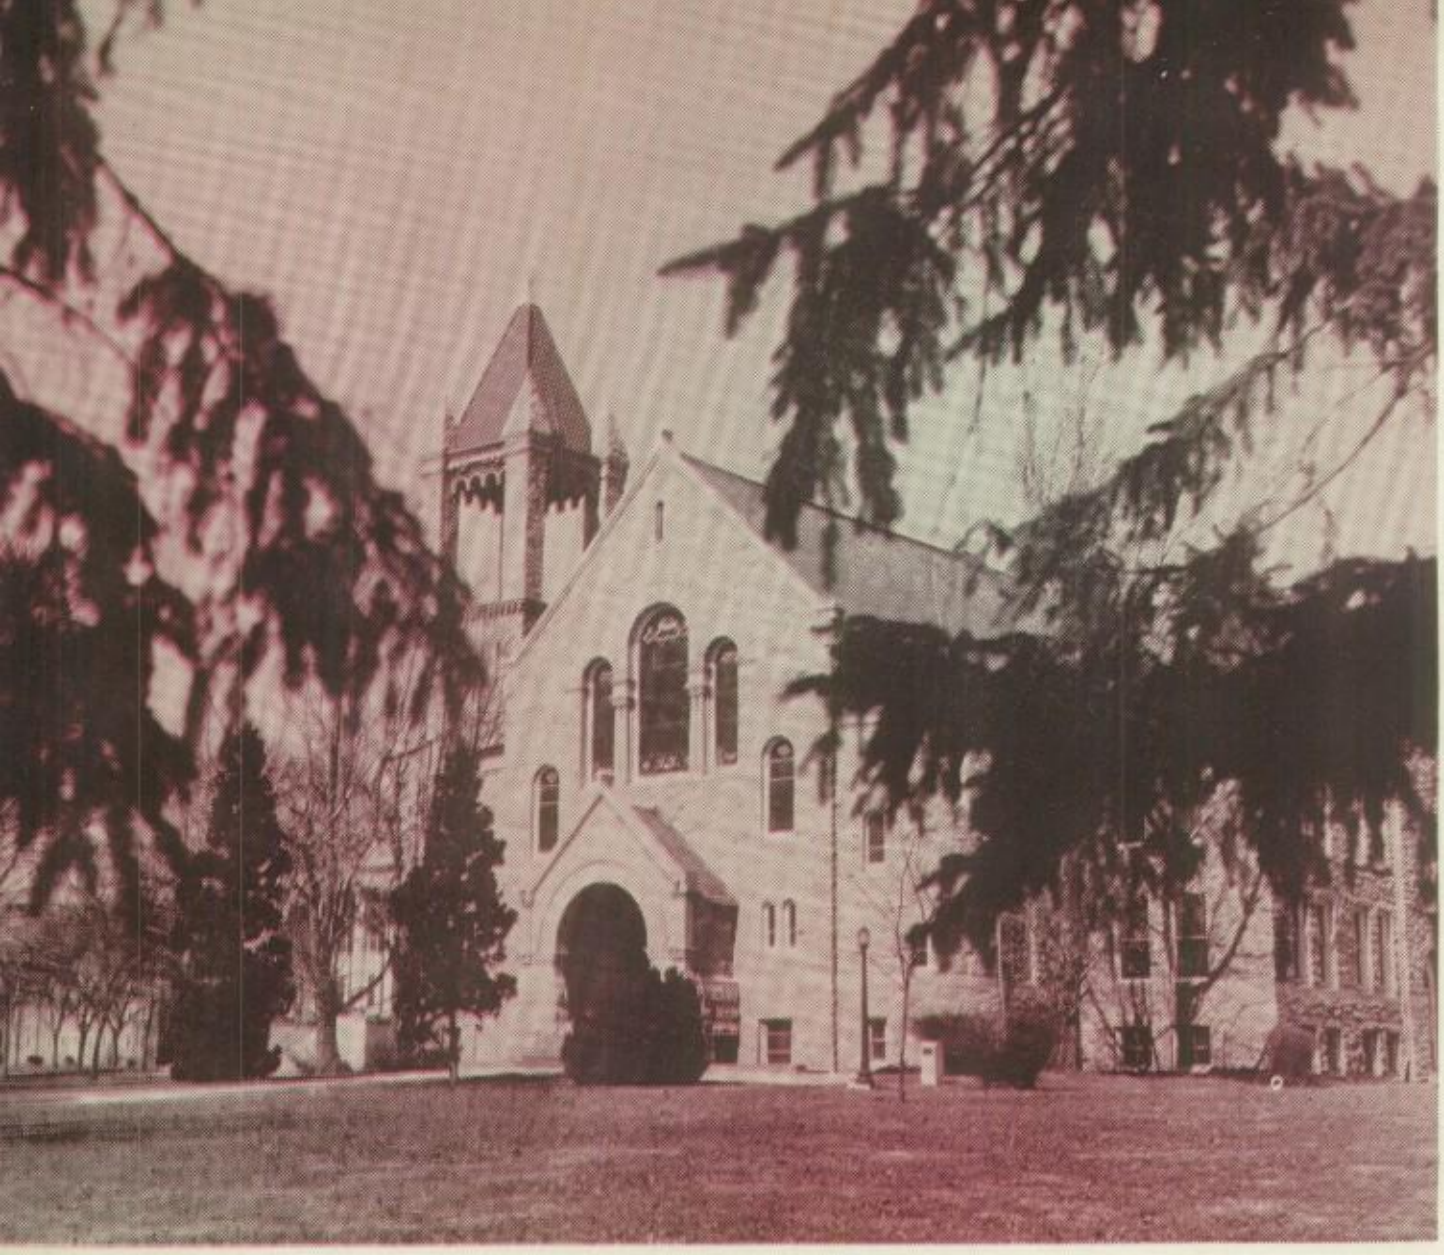




Foreword

"He has the whole world in his hands" is an expression familiar to all. We, the Seniors of 1962, hold a precious part of that world in our hands. For the past twelve years that portion has been modified, re-evaluated, and enlarged, and now, as Seniors, the time has come for us to use this learning and expand it until we hold "the whole world" in our hands.

Our yearbook records, for posterity, the activities and achievements which molded our present world and will effect our future. In the years to come this book will stimulate a flood of memories as we thankfully realize how our school placed the world in our hands.



Familiar scenes.

HAMILTON S. THOMPSON

We thank you.

MR. THOMPSON

In our trials as a class, our advisor Mr. Thompson's most appreciated gift was his ability in carpentry. At dances he supplied tacks, string, ladders, and good advice as well as platforms for bands and crownings. For our plays Mr. Thompson painted and hammered right along side his crew to provide us with sets.

Hands weren't all Mr. Thompson was quick with for he was a proficient solver of our many "math" problems and helped the class budget in order to produce this yearbook. Human relation problems were part of his job too, as he helped handle candy, magazine, and Christmas card sales.

Aside from his school duties as teacher of Industrial Arts, member of Demerit board, and head of Crafts Club, Mr. Thompson enjoys contracting and devotes his summers to building houses.

We, the Class of '62, express our deepest thanks to our patient advisor, Mr. Thompson.

Mr. Thompson looks up thoughtfully while working in the shop.

They devoted hours to planning . . .

Minds to plan and hands to work—these belong to the fifteen citizens making up the Perkiomen Joint School Board who serve their community through education. In meetings held every fourth Thursday at the Elementary School, they provide for the development of better educational policies and school expenditures through reports and projects. A beautiful school, an efficiently run administration, and an excellent faculty exemplify the hard work and long hours given by every board member.

We, the Class of 1962, express our deepest thanks to these civic-minded people for their diligent endeavors that have made our school years a most memorable experience.

WILLIAM H. CLEMENT

This yearbook will recall your happy associations in school while you were working with hand and mind. We wish you well as you build upon what you have already learned. William Cowper said, "Knowledge is proud that he has learn'd so much; wisdom is humble that he knows no more." May God bless you richly with both knowledge and wisdom.

Sincerely,
LOUIS A. KRUG
Supervising Principal

LOUIS A. KRUG

. . . supervision . . .

Mr. Krug has a full-time job carrying out the policies established by the School Board in accordance with state regulations in the three schools included in the Perkiomen Joint School System. He is responsible for the purchasing of equipment and supplies to fill the needs of each school. When repairs are necessary, Mr. Krug is ready to have the troubles remedied speedily.

An additional duty this year is the supervision of the new wings now being constructed at the high school, in order to ease our growing pains. Other tasks which are part of his daily routine are screening and interviewing applicants for teaching positions, planning curriculum revision, submitting financial reports, and doing the thousand and one odd jobs that are part of running a school system.

Writing recommendations for high school seniors applying for jobs or planning to enter college proves to be a time-consuming service performed by Mr. Krug.

Despite his busy schedule, Mr. Krug manages to find time to participate actively in community affairs. He sings in the church choir and at benefits, is a member of the Rotary Club, enjoys gardening, and takes a traditional hunting trip every fall. Throughout all his activities, both business and pleasure, Mr. Krug is noted for his friendly, tactful manner.

The educated individual is one who can choose between good and evil, truth and falsehood, the beautiful and the ugly, the worthwhile and the trivial. He can choose a good book, a good painting or a good piece of music; his education has prepared him to make the many decisions necessary in planning a good life and in conducting it properly.

My sincere congratulations and best wishes to the graduating class.

Sincerely,

GOMER R. EDWARDS
Principal

GOMER R. EDWARDS

. . . and guidance.

Mr. Edwards' primary role as principal is to develop the life and character of the school. Under his hand Collegeville-Trappe High School has won many honors and recognition both in curricular and extra-curricular activities. As a dedicated professional, he is constantly planning curriculum changes in every department so students will receive modern instruction in each field.

In addition to these most vital responsibilities, Mr. Edwards spends many hours during the summer preparing the entire school's master schedule. During the year he processes book and equipment orders, prepares agendas for faculty meetings, and plans the school calendar, scheduling all athletic events, dances, assemblies, plays, special meetings, class trips, and . . . final examinations. All of the numerous details and perplexing problems are efficiently solved by Mr. Edwards with speed and accuracy.

Many monthly meetings must be attended—faculty and School Board, educational meetings with fellow district Principals, and meetings with architects. With the expansion of the school facilities comes increased responsibilities for our Principal, but he is never too busy to offer friendly advice and sympathetic understanding. His leadership is an inspiration to both students and teachers.

Because of his interest and efforts in our behalf, and his cooperation in all our undertakings, he has earned our deepest respect and admiration.

Seventh Grade

COLLEGEVILLE-TRAPPE

The past school year, because of crowded conditions and construction of additional rooms at the high school, the seventh grades were housed in the Collegeville-Trappe Elementary and Skippack Elementary Schools. The class schedule consisted of spending half the day with each seventh grade teacher (there are two sections at both schools) and three special periods with instructors of art, physical education, and music.

Studying and learning through the year, the seventh graders obtained a wide variety of subject matter covering such engrossing topics as cavemen, Romans, and the Arabian Desert included in geography and history courses. Grammar, punc-

tuation, and their application in creative writing were mixed into the day's work, while arithmetic problems formed the icing for their cake of learning.

Besides their regular business of getting an education, the boys and girls enjoyed home room parties and field trips, including one jaunt to Philadelphia. Although separated from high school daily life, many seventh grade members attended the athletic events and came to the Student Council's special Junior High Dances.

Throughout the year the seventh graders were preparing for the big move to the high school, and looked forward to the challenging world they are going to enter in the fall.

Students quietly study their assignments at Skippack Elementary School.

Suzanne Hare and Ralph Staub hand their completed work to Mr. Cronin.

A Tree Grows In Brooklyn, and similarly a young sapling (better known as the eighth grade) grew at Collegeville-Trappe. A firm trunk was provided by the support of three hard-working home room teachers, Miss Drescher, Miss Rosciola, and Mrs. Hyatt. Strong limbs were elected as the class officers faithfully served their friends by leading and accepting responsibility. Last, but not least, came the class members who furnished the foliage for the tree and took part in its varied recreational activities such as ice skating parties, hobby shows, displays of baby snaps, and lively discussions! These pastimes provided a pleasing change from their usual work and curriculum and helped the class of 1966 add an unusually wide ring to its growth this year.

. . . was developed.

"Freshmen" was the title of the final chapter of junior high school as the ninth graders collected data for Volume I of their secondary education. Starting in autumn, the 9C's had a Halloween party and at Christmas each section exchanged gag gifts. Also during this season 9A's won the Color Day Board Contest and the 9B's were first with 100% Student Council membership.

Mid-winter was brightened by a sledding party, ice-skating parties, Latin plays, and a bowling party. In the spring the ninth grade toured the Ursinus College Library and several ambitious girls entered the W.C.T.U. contest. Thus closed the last chapter of Volume I, a most memorable story, as the ninth graders looked forward eagerly to Volume II—senior high school.

Experiments, demonstrated by Mr. Myers, sometimes explode into problems—mathematical and otherwise.

Through initiative and experimentation . . .

Rex Reichert presents all sides of a geometry problem to the 11A class.

That a fire can be started by combining sawdust, water, and sodium peroxide, was one of the more startling experiments demonstrated in the weekly lab period by Mr. Myers. When not watching or performing experiments, the students struggled with equations and problems, and memorized formulas, valences, and theories, as they sought to learn the basic principles of modern chemistry. Discussions on atomic structure and the properties of elements will leave the students with lasting memories of what makes up matter.

Special science projects for each individual to solve on his own, reminded the students of geometry class, where solving problems was a daily occurrence. Using the latest textbook, which combined instruction of solid and plane geometry, Miss Rosciola taught a new approach to geometry which still, however, had many theorems and postulates to learn and use in problems. Especially interesting was the study of polyhedra, as the students put into concrete form such simple figures as pyramids and cubes, while honor students constructed more intricate figures such as the icosahedron.

Biology class work varied in scope from dissecting a frog to examining a leaf under a microscope, but whatever phase of plant or animal life the class investigated, the fascination of the subject never varied. It was wonderful to learn more of "the world about us", especially as set forth by Miss Berger.

The world of mathematics was made clearer in trigonometry class as the new P.S.G.A. textbooks brought a completely different approach to teaching arithmetic in which letters were used instead of figures to work out the theories behind the methods of solving problems. Solid geometry, however, remained as solid as Euclid discovered it. The term ended with a study of the basic functions.

Mathematics were put to practical use as the boys of Mr. Thompson's shop class figured out plans for bookcases and cedar chests and then produced them in all their beauty. House plans were drawn up as part of the study of mechanical drawing.

Mr. Thompson teaches the 11B boys the methods of mechanical drawing.

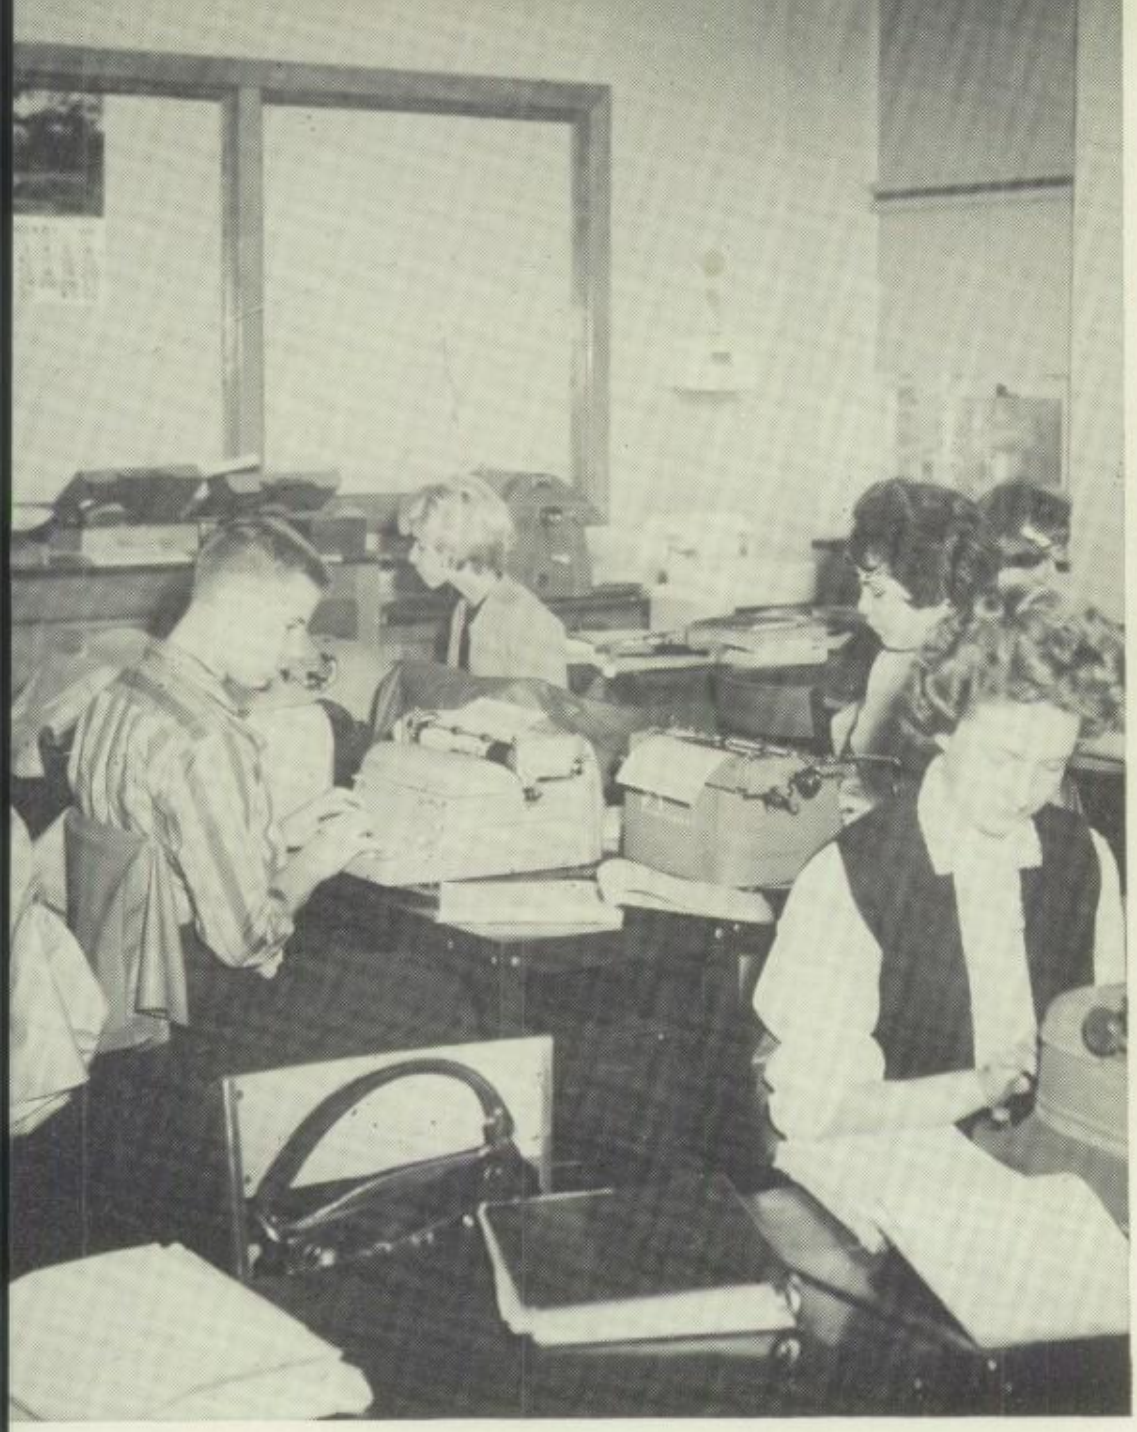
Busy students labor ambitiously on their individual works of art.

. . . new horizons . . .

Heads turn for a comment from Mr. Lawson during a 10A1 English buzz session.

The study of English, its language and literature, was, of course, a basic part of the curriculum for all students. Grammar and the mechanics of writing were viewed and reviewed in each class, and the knowledge gained thereby put to use in compositions, term papers, and oral and written book reviews. The study of literature, its content changing with each year, broadened the students' viewpoints and increased vocabularies, as well as bringing greater pleasure in reading. Eighth-graders worked on some American writings; freshmen became acquainted with Shakespeare; sophomores widened this acquaintance and met Dickens and Eliot; juniors enjoyed an anthology of American Literature; and seniors went on to the chronological study of English Literature. There were special classes in reading and library science for junior high school students.

The latter were also made aware of the history of art, and then given an opportunity for creative expression by trying many art mediums, from water-color to sculpture.



Finger exercising is a very popular sport in Mr. Palomaki's 11B typing class.

Guin Cotton fills a page of her notebook with shorthand notation.

. . . at home and abroad.

World Culture proffered a glimpse into what its title implies—a discovering of the way the many peoples of the world dress, work, learn, worship, and live. Unfamiliar far-off lands became vividly real as the work of the engrossing class proceeded.

Languages differ, but the art of typing remains the same in any country, and all good typists aim for neatness, speed, and accuracy. This year's crop of future secretaries used drills in regular class and the dictaphone in office practice in order to gain typing proficiency.

After the clatter of typewriters in classes acquiring the abc's of typing, instruction in shorthand seemed amazingly quiet, as Miss Major dictated and neat rows of loops and curls filled lined pages. There followed the puzzle-solving job of turning the loops into the more usual form of written expression.

Eyes are focused on the screen as the new 10A World Cultures class glimpses into the culture of other countries.

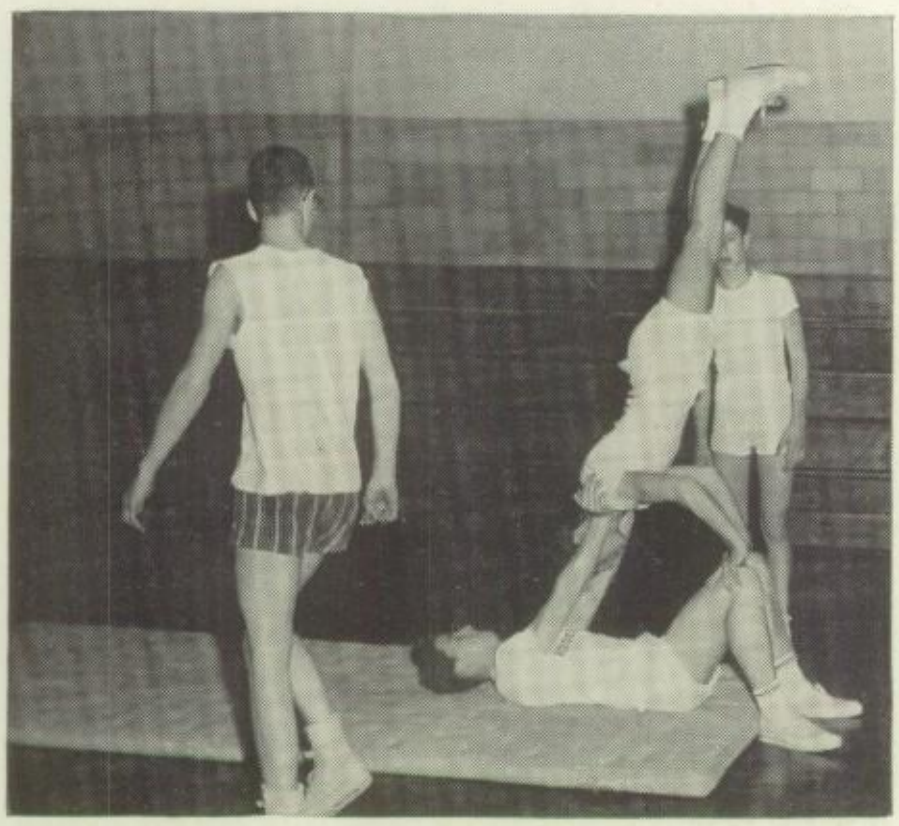
Twelfth grade girls enjoy a health class discussion.

Health classes studied the intricacies of the human body and also delved into the mysteries of the mind. Mrs. Thomas led the girls in many absorbing discussions on such subjects, and Mr. Fretz presented similar material, and held lively sessions with the boys.

For a practical application of one of the rules of good health—that of getting good exercise—and in line with the national physical fitness program, sit-ups, push-ups, knee-bends, and chin-ups became routine. There was also plenty of fun from games—beginning with hockey and football, through basketball, volleyball, and war-ball to softball and baseball in the spring.

Health from proper nutrition formed part of the instruction in Home Economics class, as Mrs. Lawson presented the fundamentals of meal-planning, marketing, and cooking. All the practical arts of home-making from table-setting to mending, from giving a party to selecting material, were a part of this useful course.

We exercised physically . . .



Tenth grade experts show Ronnie Smith how the feat should be done.

Donna Saylor watches Linda Nock remove her pattern from the material in 8B home ec class.

Carol Shupe, F.T.A. prexy, learns Latin as she teaches it to the ninth grade.

. . . and mentally.

"Latin for Americans" Book I introduced students to the universal language of the Roman world, and to the way of life of those who were accustomed to conjugating and declining without thinking twice about it. Not able to speak with the ease of the Romans, but able to read some of the words of Caesar, Cicero, and Virgil, to understand more fully the rules of English grammar, and to enlarge their vocabulary, second-year students felt well rewarded by the time they had finished "Latin for Americans" Book II.

A living language must become as familiar to the ear as to the eye, so; "je parle, tu parles, il parle, etc.", became a well-known sight and sound to students of French. Mrs. Ziegenfus and Miss Lieberman presided over all language classes encouraging the students to converse, to compose, to read, and to listen to recordings of others and themselves. France, its history and its culture, were made an integral part of the course, and book reviews of well-known French novels and stories were required.

We acquired organization and unity . . .

The Class of 1964 launched into Senior High filled with ambition to reach the stars. David Allebach, Ross Doughty, Sandra Donahue, and Jerry Schneider were elected as astronauts to guide the Sophomore Class. The blueprints for the year's activities were constructed under the capable direction of the chief engineer, Mr. Greager.

The first stage of the project was successfully erected as the ambitious rocketeers gave their dance, "The Sophomore Send-Off". This was followed in November by a second big step—the candy sale—which completed another stage. As the Sophomore treasury swelled from the profits of the dance and the sale, the Class of 1964 sponsored another dance, "Me and My Shadow", in honor of Ground Hog Day. Construction from the blueprints made in the fall was completed by a bake sale held on April 21.

Their newly-finished rocket will provide a good start for the sophomores as they blast toward their senior year.

"Manager" Mr. Lawson and the Team of '63 were looking forward to a very successful season. In the first inning, the Junior Magazine Salesmen were up to bat. Their hard-hitting effort for this money-making campaign sent them speeding to first base. The Mighty Juniors were then able to steal second base by diverting everyone's attention with lovely decorations and the heavenly music of the Manhattans at their King and Queen of Hearts Dance, "Silhouettes in Scarlet." Next, the cast of the Junior Play was up to bat. They gave such a fabulous performance of "We Shook the Family Tree", that the amused and delighted audiences cheered them on to third base.

And what could be a better way to glide into home plate than with a beautiful prom in May? The fall bake sale and the record hop were additional efforts that helped raise funds for the team. Considering its performance over the past year, the Team of '63 can feel very proud of its high batting average.

Hugh Brown depicts the hard-working stage crew member.

"Another opening, another show . . ." The Class of '63 was ready to go. Not only had "We Shook The Family Tree," but every member of the class was shaking before and behind the scenes on March 9th, opening night. But their fears were dispersed; the play was a tremendous success. All who had any part in the production were grateful to their class advisor Mr. Lawson, who directed the play.

The cast of "We Shook the Family Tree" relaxes together before curtain time.

From glue and scissors to hard-won pink pictures,
With hours of toil our vacations to spoil,
We bring you this yearbook.

With double-exposures from Denny's misnomers,
And write-ups galore to make a heart sore,
We bring you this yearbook.

Through Mr. Sharp's calls and runs down the halls,
To classes disrupted for pictures quintupled,
We bring you this yearbook.

By the work of Pete, who with art staff complete,
Used hands to discover the end-sheet and cover,
We bring you this yearbook.

The hours passed here will always be dear
To us, the editors, and Mr. Leftwich, our creditor,
Who bring you this yearbook.

We organized . . .

There's more to making a yearbook than meets the eye.

The industrious literary advisors, Miss Drescher, Miss Lieberman, and Mr. Lawson discuss yearbook write-ups.

STUDENT COUNCIL

. . . governed and planned . . .

The Student Council was formed to provide an opportunity for students to participate in democratic government and to increase co-operation between faculty and students. Service to the school this year included the purchase of a phonograph, the showing of a film, and the presentation of folk-singer Gary Mitchell. Funds were obtained by holding dances and selling candy and programs at sports events.

Support for the school teams in such concrete form as the swanky new red and white uniforms of the cheerleaders, was the chief aim of the Athletic Association this year. Funds were collected from dances, football and basketball games, and then carefully expended by this organization of team captains and their advisors, Mrs. Thomas, Mr. Fretz, and Mr. Edwards.

. . . for self-direction.

Click, Click. Time: three minutes before the end of class. Lights! Bell! Action! As the students changed classes, C-T's quiet hall turned into a maze of mumbling, laughing classmates, kept in order by the Hall Patrol. Cafeteria dismissal was handled efficiently by the table captains. The small-scale police force, directed by Mr. Miller, kept behavior in apple-pie order.

"Changing of classes must be orderly and free of unnecessary loud noise." This handbook rule and others were enforced by the Sophomores who ate during junior high lunch. Both the hall patrol members and table captains were trained and supervised by Miss Berger, and maintained pleasant, orderly conditions in the cafeteria and halls at the close of their lunch hour.

Musical skill was developed . . .

"Sound the trumpet, beat the drums!" Even in the heat of August the drums of the C-T band were beating out a cadance, and after the fall term started, the early morning hours before school were filled with the sound of music as the band played on. Mr. Steltz adhered to the ancient adage "Practice makes perfect". This proved true when the band went into action during halftimes at the football games. Their rousing music and clever routines were the pride of the school.

In addition to the regular band, school assemblies were beautifully enriched by the music of the Brass Ensemble. Bouncy dance numbers were the specialty of the swinging Dance Band at the P.T.A. Open House and the Spring Concert.

Cheers greet a rousing half-time performance by the C-T band at the last game of the season.

. . . by practice and participation.

Break-of-the-dawn song fests were shared with the birds by the tuneful Senior Glee Club. The air trembled with trilling sopranos, soughing altos, swinging tenors, and booming basses. Mr. Steltz cajoled these sounds into the harmony for which this club is famous. The songsters caroled in the school Christmas assembly and participated melodiously in the annual Spring Concert.

If "Music is the universal language of mankind", then the Junior Glee Club was well prepared to speak with ease and charm, after their many rehearsals with Mrs. Scheid. In spite of the absence of a seventh grade this year, the concerts at Christmas time for the P.T.A. and in the spring for the whole community, enchanted their rapt listeners.

. . . as we served . . .

Helping others is the purpose of the Tri-Hi-Y. Led by Miss Lieberman, the girls sponsored the annual Miss Hockey-Mr. Football Dance for the benefit of the World Service Organization. In November the club collected the traditional food basket for a needy family, hoping to make their Thanksgiving a little brighter. During the Christmas season the girls bought toys which they took to Pennhurst, a community for retarded children. The club also enjoyed a Christmas party with the Hi-Y.

. . . our community . . .

Preparing better leaders for a better world is the objective of the Hi-Y. This senior high branch of the Y.M.C.A. contributed to the World Service Program and sent representatives to important Hi-Y conferences, including a model legislature. Pleasure was mixed with business as Mr. Leftwich and the boys participated in rallies, planned a dance, and highlighted their busy program with a Christmas party to which the Tri-Hi-Y was invited.

. . . by teaching . . .

The pro's and con's of teaching were discussed by F.T.A. members, guided by Mr. Yeakel and their own experiences as "teachers for a day". While developing a better understanding of this profession, the club sent representatives to P.F.T.A. conventions and held a tea for the faculty. Funds to support these activities were raised by candy and bake sales. Through their work, the future teachers realized the many joys of teaching and the vital part education plays in our country's welfare.

. . . and reporting.

The mysteries involved in the making of a newspaper were solved monthly by the editors and staff of the Red and Gold, as they struggled with reporting, writing, re-writing, typing, and proofreading. The results of their research were most enjoyable—colorful covers, a monthly calendar, good coverage of sports and social events, thought-provoking editorials, and especially the new feature, "Senior Spotlight". The main faculty advisor Miss Drescher helped with editing and layouts, while Mr. Palomaki handled the circulation.

School spirit was created . . .

Looking for a letterman? You could find thirty of them exercising in the gym every Monday. There, supervised by Mr. Fretz, senior high boys strove to improve relationships and further good sportsmanship among athletic teams of surrounding schools. During club period the boys worked on their favorite games. At night meetings, plans were laid to promote better sports activity in the school.

S-C-ORE! That was the enthusiastic cry of the "new" cheerleaders. The seven peppy cheerleaders brought to our school a brisk new way of cheering acquired last summer at cheerleading camp, which brought them the Best School Spirit award. Eye-catchers at every game and pep rally, the cheerleaders stirred up a storm of cheers to boost our team to victory.

. . . and new worlds explored.

Have you ever wanted to explore the ruins of Pompeii or eat at a sidewalk café in Paris? This was the pastime of the Travel Club every Monday via colorful slides brought in by Mrs. Sigg and other members of the club. Through this beautiful medium the travelers visited *Hawaii, Latin America,* and *Europe* without leaving their easy chairs.

Portrait-sketching, water coloring, and still-life drawing were practiced by the brushes of the Art Club. Strokes were perfected by learning to use depth perception, dimension, shadowing, perspective, and shading. Mr. Hale put his protegés to work making paper candles for decoration of the cafeteria at Christmas. Capturing the world on paper was the joy these artists sought.

As manual dexterity increased . . .

Thumping basketballs, cracking rifles, buzzing saws, and booming voices signified, not an invasion of the school by some rebellious students, but the monthly evening meeting of the Industrial Arts Society. This organization was composed of the boys who had maintained an average of ninety or above in their industrial arts courses. Many hours of pleasurable companionship were enjoyed by the students and Mr. Thompson, the sponsor of this honor association.

XXX XXX. Future stenographers relaxed during club period by "drawing" pictures with X's. When in an ambitious mood, the Typing Club members increased their speed and accuracy by doing homework assignments and drills. Newcomers were taught finger positions and shown the uses of the cylinder, paper guide, paper release, and other parts of the machine. If a typewriter was off-key, Miss Major was there to put it back in tune.

. . . we improved ourselves . . .

What makes up the charming young woman? To answer this important question, Charm Club members spent many hours in earnest discussion. Club periods were also filled with demonstrations on the correct application of make-up given by Mrs. Lawson. They presented skits to emphasize the do's and don'ts of etiquette and dress. At the conclusion of the year each girl could enjoy the impressive results of her own self-improvement.

Clicking knitting needles pointed the way to many fun-filled afternoons for the Needlework Club. Sharpened wits were needed to perfect the arts of crocheting and craftwork as the needlers took a successful stab at making attractive jewelry boxes. Miss Rosciola, mixing math with handicraft, taught the girls how "A stitch in time saves nine," while consoling the girls whose troubles ranged from dropped stitches to pricked fingers.

. . . and expanded our interests . . .

"Checkmate!" "That's my trick." "Can you spell separate with an 'e'?" These phrases were part of the jargon escaping from Room 120 into the halls on Monday afternoon, when Mr. Manley's Activities Club was in full swing. Various challenging games tested the members' patience and persistence, observation and reasoning, spelling and vocabulary, as they enjoyed friendly competition with each other.

The plans of the Junior Activities Club depended on the weather. Cold winds or cloudy skies kept the members indoors dealing cards, taking kings, or out-spelling one another at Scrabble. When the sun came out and the mercury rose, the club emerged also—and warmed up at a variety of outdoor games. In either case, Mr. Lawson supervised the activities.

. . . in varied fields of recreation.

Any Library Club member or Mr. Greager can testify that library work is filled with many hidden chores. The future librarians became well acquainted with their task of checking books out, especially at book report time. In addition, all books had to be returned to their proper places, old books repaired and located when necessary, and new books catalogued and accessioned.

"It's a bird! It's a plane!" That's right, it was a plane. If questioned, any member of the Aviation Club could discuss airplanes from the rudder to the propeller. Films shown to the club were *The Blue Angels, National Air Races,* and *Approaching the Speed of Sound.* Piloted by Mr. Miller, the aspiring aviators learned about the transportation of our times.

"Zdrastvoeetje!" While this word is often used in Red Square, it is seldom heard in Collegeville. Any member of the Russian Club, however, knew how to answer "and hello to you too!" in the same tongue. Recordings of Russian folksongs gave the members a better understanding of Russian culture. With the aid of textbooks an imaginary tour of Russia was conducted by Mrs. Ziegenfus, so that on a real voyage, there would be no trouble conversing with the natives.

. . . foreign problems . . .

Current events provided the spark for the formation of the Social Studies Club, promoted by Mr. Grant. Guest speakers gave talks to the club on the Berlin Crisis and on a comparison of American and Soviet economic systems, highlighted by slides of Russian industry. Parents were invited to an evening program which featured a discussion on the problems of administering public assistance. Members gave book reports on *Animal Farm, 1984, Brave New World* and *Hiroshima,* and debated on "Propaganda in Everyday Life."

. . . and probed into the mysteries . . .

Over field and dale hiked Miss Berger leading the Natural Science Club members, as they explored the local terrain in quest of rock, bird, flower, and tree specimens. Streams and pools were visited to see amphibians and fish, and both plant and animal findings were brought back to be identified and discussed. When nature guarded her secrets with rain or snow, the natural scientists traveled through space on star studded tours via slides and film strips.

. . . of science . . .

Smoking fires, bubbling solutions, sparkling crystals, and surprised looks could be seen in room 109 on Monday afternoons. Competently directed by Mr. Myers, the Chemistry Club performed many fundamental experiments and witnessed with their own eyes the different principles involved in chemical reactions. The inquisitive chemists were constantly trying to satisfy their desire to know what would happen. They often found, to their chagrin, when the bangs, whooms, and swishes were over that some chemicals just shouldn't be mixed.

. . . and mechanical intricacies.

With a paint can here and a nail keg there, not to mention lumber, varnish, and lathes, the scene was set for a Crafts Club meeting. The buzz of saws mingled with the taps of hammers as Mr. Thompson and the boys applied minds and hands to the production of useful, attractive articles—cutting boards, lamp bases, and arrow racks.

Daniel Boone and Davy Crockett would turn green with envy if they saw how the bullets of Rifle Club members continually ripped into the bullseye. Stressing the development of efficient marksmanship, Mr. Palomaki also laid emphasis on the proper care of firearms and safety in riflery. As a service project the gunners undertook the improvement of school shooting facilities.

Tangling tactics were employed . . .

Arnold Lloyd displays his distinctive running style as he skirts the end for a T.D.

As the first whistle blew in the football game with Lower Moreland, C-T ventured into one of its better seasons. Our team was molded into a smooth-working efficient unit whose wins were a result of a team working together to produce a team win.

Although the Colonels had trouble getting running in the first game, the loss served as a spur to inspire the team to "go to town" in subsequent games. The squad shut out Jenkintown nine to nothing in the following week's game, and then went on to its most glorious victory, as the unit overcame a Wyomissing team riding on the crest of a twenty-three game winning streak.

As the season progressed, the Colonels were leaving a swath of defeated teams in their wake, including a triumph over Schwenksville, our arch rival. In the final phase of the season the gridiron boys were tripped by a good Upper Dublin team, and then coasted to victories over Pottsgrove and West Reading, capping a successful season throughout which all our wins were truly team wins.

August brought forth many upstarts to be trained by Mrs. Thomas and the veteran hockey players. Many of the girls were able to impart more than the basic fundamentals since they had attended hockey camp during the summer with half their tuition paid by the P.T.A. Led by co-captains Judy Johnston and Carol Shupe, the team did laps, calisthenics, and drills. The season opened with a practice scrimmage against Spring-Ford, which the squad won. Keeping the same pace, they overcame Bridgeport but suffered a set-back on the next game, followed by a victory and then another loss. By tying Upper Dublin, the two-year undefeated champions, The Colonettes secured third place in the league.

Dribbling balls down the court . . .

Bill Lehman sinks another "mouth opener".

Swish! Two points! Unfortunately C-T's whistleballers didn't accomplish this feat often enough, although the squad had an average height of six feet. After several warm-ups with teams outside the league, Mr. Hilt prepared the boys for Jenkintown, last year's champions. In an exciting game C-T won the first victory in sixteen starts. They didn't prevail against Upper Dublin, but acquired experience in many types of basketball strategy including zone presses, squash presses, man-to-man and zone defenses, and multiple offenses. They never gave up, but never won again in league play. The team finished the hard season on a high note in a frolicking victory over the Faculty Five.

The most enhancing factor of the season was the better-than-expected performance of the J.V.'s. Whipped into shape by Mr. Manley, they formed a consistent unit. First the 1961 alumni, then Jenkintown, Schwenksville, Bridgeport, and Pottsgrove, fell victim to the young Colonels. Upper Dublin was the only team to beat them twice and Lower Moreland once—an exciting season is looming in the future.

GIRLS BASKETBALL

Seated: Rice, Wentz, Leister, McCleary, Wagner, Burchyka, Nolan, Brader, Pancoast, Pollarine, Cassel, Longacre, Snyder. *Standing:* Kurgan, Donahue, Kriebel, Johnston, Light, Shupe, Krehl, Kuhnt, Bailey, Higby, Lehman, Pearlstine, Moyer, Landis, Genard, Mrs. Thomas.

Teammates wait anxiously for the outcome of the jump.

Carol Bailey leans expectantly backward as a Bridgeport player blocks an incoming ball.

For the first time in seventeen years the girls' basketball team won the Intercounty League Championship. The victorious season began with a win over Lower Moreland and, with the exception of Upper Dublin, every succeeding game was a beautiful display of C-T teamwork and superiority. The squad was indebted to Mrs. Thomas and Miss Oehrle, for without their invaluable coaching the title could never have been won. This championship year will always be remembered by the entire student body and faculty of Collegeville-Trappe High School.

Captain Eleanor Nolan beams as she displays the Championship Trophy.

Swinging bats and flying balls . . .

With seven lettermen returning this year the prospects for Coach Fretz's squad having a winning season are quite good. Inexperience and a dearth of good hitters were the main problems of the Varsity last year, although these troubles could be dealt with judging from their 27-3 margin over Jenkintown. Their record for Inter-County League play was 3-9 with victories over Jenkintown once and Upper Dublin twice.

Hap Schatz reaches from first base for a "peg-out".

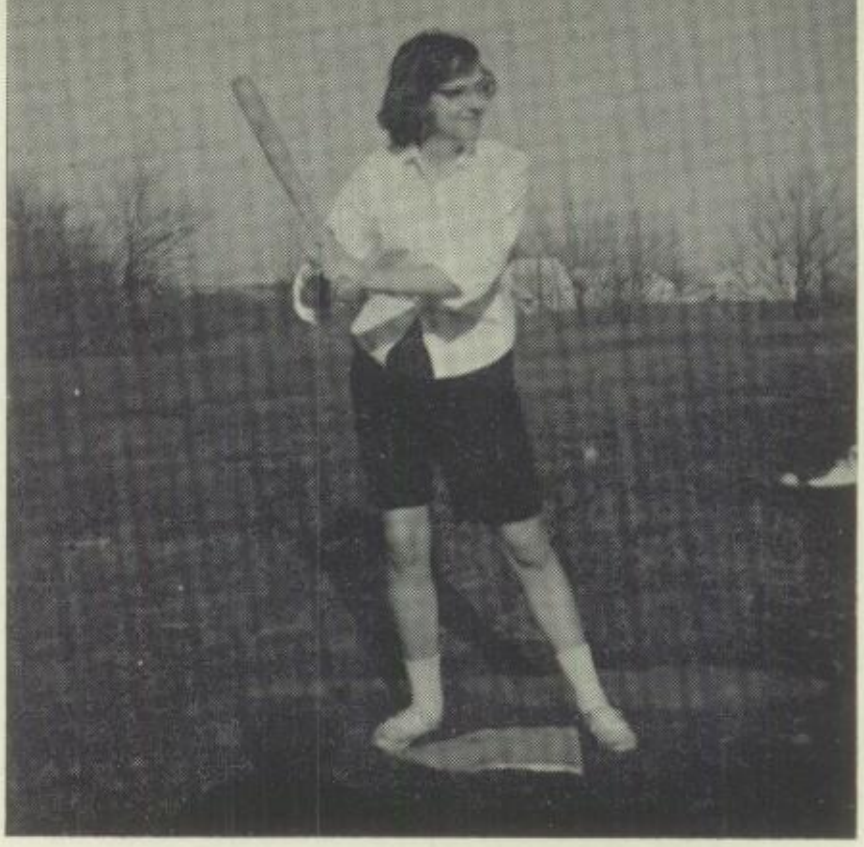
1962 SOFTBALL SCHEDULE

Date	*Opponent*	*Field*
April 4	Spring-Ford	Away
April 25	Pottsgrove	Away
May 9	Pottsgrove	Home
May 15	Spring-Ford	Home

Shortly after the return of the robin, girls in shorts, swinging bats, and tossing balls, became a typical sight on the field in back of the school. Mrs. Thomas organized the team in early April and thereafter long hours of practice readied the girls for their schedule of games. There were four contests—two with Pottsgrove resulting in two defeats, and two with Spring-Ford. The Colonelettes emerged from the second Spring-Ford battle the happy victors.



Captain Connie Moyer prepares to hit the first homerun of the season.

. . . as baseball replaced basketball.

Under the junior high athletic program, an outlet for excess energy along with a training program for the neophyte athlete, is provided. Although the junior high basketball team had too many little neophytes to chalk up an impressive record, Mr. Greager drilled the boys to their capacity, training them to put to good use the fundamentals of basketball which they had learned.

This practice held true for junior high baseball where stress was laid on gaining more skill. The team had a more impressive record, however, as they won half their games. Members of these teams will become the backbone of senior high athletics.

Tom Hunsberger reaches hopefully for the ball.

Batter and catcher both wait anxiously for the pitch.

Honor was bestowed on those . . .

Mr. Yeakel and Miss Berger lead the Honor Society into the awaiting assembly.

The Howard B. Keyser Chapter of the National Honor Society was introduced to our school through the efforts of our principal Gomer R. Edwards in 1959. Since its founding, membership in the Honor Society has been the highest honor attainable by members of the Senior class. On April 12, an assembly attended by the Senior High and the honored parents was held to induct the seven Seniors selected this year. On that occasion four of the students spoke about the qualities necessary for membership—leadership, scholarship, character, and service.

Co-sponsors, Miss Sara Berger and Mr. Nelson Yeakel, headed a committee of eight faculty members who had the difficult task of choosing members from the eligible candidates. In this judging, students were required to have maintained an average of ninety or above over the past three years, before they could be considered. Then further exploration was made to see if the student's behavior in the classroom and in extra-curricular activities exemplified those qualities represented on the emblem and presented by the talks.

President ..... Arnold Lloyd
Vice-President ..... Paul Schatz
Secretary ..... Martha Waldo
Treasurer ..... Patricia Hunsicker

Class Colors ..... Lavender and White

Class Flower ..... Lilacs

Class Song ..... "Moonlight Sonata"

Class Motto—"Don't trip over today while searching for tomorrow."

The job of class officer demands leadership ability, a sense of responsibility, and personal integrity. These qualities are what we had in mind when we selected our class officers.

We appreciated fully the excellent work of our class president Arnold Lloyd, who led us at class and committee meetings through the important decisions of our Senior year.

Assuming responsibility in Arnold's absence was Paul Schatz, our vice-president. Paul was also an expert at last-minute dance decorating.

Keeping our class records wasn't an easy task, as our secretary Martha Waldo could testify. Despite the difficulties she did an admirable job.

Patricia Hunsicker spent hours collecting dues, paying bills, and keeping accounts. We're grateful that our hard-earned money was in such capable hands.

Hearty thanks to all four from the Class of '62!

Farewell

Now as Seniors we have looked back through the years we've spent in school and compiled in this book a record of our past year. We retain fond memories of our school life and also a working knowledge to aid us in the future, for what lies ahead is of vital concern. Whether we be continuing our education or stepping right into work, our time spent here will be invaluable in helping us to success. So, we thank our teachers, parents, and friends, and putting away childish things, we go forth to get the whole world in our hands.
